Empowerment Collaborative (EC) Key Dates and Information

- Monthly Empowerment Meetings:
    - December 6, 2023, 11:00: Planning follow-up
    - January 24, 2024, 11:00: Ecosystem and communication
    - February 21, 2024, 11:00: Supporting teacher experiment planning
    - March 20, 2024, 11:00: Workplace environments and project management
    - April 17, 2024, 11:00: Planning for professional development
    - May 15, 2024, 11:00: Planning for next year

To do, plan, and schedule:

- Identify interested and viable schools/districts as exploration sites: which schools will move forward? (Early-December 2023)
- Communicate with Judy Frank to align and connect SREB to the participating sites - SREB needs district and school name and address (as soon as schools are identified)
- Broker communication between schools and EC Principal Investigator, Patricia Hammer to identify and plan for the the research schedule (Beginning in January)
- Schedule one EC team visit with your state team in November-January: work with EC team to determine the goals and plans for this meeting
- Schedule and host a MOU signing and visioning event for any/all schools that wish to continue into installation (Spring 2024)
- Determine how you will prepare districts to conduct empathy interviews with the shareholders so that they can make a plan for gaining empathy: the goal would be for the empathy to be gained as close to the customer as possible. (For example: principals gain empathy on teacher experience, teachers gain empathy on student experience)
- Use fidelity assessments with school-level implementation teams to formatively coach teams through the stages of implementation (beginning after first experimentation)
- Implementation Grant Planning:
    - Collaborate with the Empowerment Collaborative team to identify key goals and benchmarks for a four- to five-year implementation period
    - Collaborate with the Empowerment Collaborative team to develop plans for expansion beyond initial schools
    - Collaborate with Empowerment Collaborative team to determine match sources and collect letters of match support for implementation grant
